

Request for genetic testing (marker test) Congenital liver fibrosis (CLF) in Franches-Montagnes horses

- **5 to 10 ml EDTA blood** (clearly labeled with the identity of the horse),
- this **completed form** and
- a **copy of the pedigree**

in a jiffy bag at room temperature to: **Institute of Genetics
University of Bern
Bremgartenstrasse 109a
CH-3001 Bern**

The price for a test result is **80,- CHF** plus VAT. Since individual submissions cannot be processed individually, a waiting time of 1-3 months until the result is available should be expected.

1. Animal information

Breed	Date of sample taking		
Name	UELN code		
Registry ID	Chip No.		
Date of birth	Sex	male	female

2. Owner information

Name	First name		
Street, No.	Country		
Postal code	City		
E-mail			

I agree to genetic testing of the animal indicated above, that the resulting data may be passed to the breeding organization where the stud book is kept and that the test results and sample material may be used for further scientific research. The leftover sample material will belong to the University of Bern.
